

Accurately Collect Data

OVERVIEW

Create digital workflows with SmartCAT, an iOS and Android data collection platform to help manage capital assets, tools, materials and processes. The highly configurable app provides everything needed to accurately manage data for any application, all without a large and costly infrastructure.

What SmartCAT can do for you:

-  **Create Custom Forms & Data Fields** – Design forms to meet the requirements of your application and assign them to specific users.
-  **Collect Accurate and Verifiable Data** – Utilize technologies such as long-range UHF RFID, NFC, Barcode, temperature sensing and GPS.
-  **Eliminate Data Collection Errors** – Use fields such as date-timestamps, dynamic dropdowns and e-signature for higher data collection accuracy.
-  **Create a Portable Work Environment** – Work online or offline with the ability to store data locally on the device.

Get Your Gameboard

To experience how easy SmartCAT is to use for yourself, we offer a free, no obligation customized gameboard! All you need is a mobile device and less than 10 minutes to be up and running.

Obtain Actionable Insights

Actionable business insights are only as good as your data. SmartCAT collects clean and verifiable data that automatically saves in a cloud database, making it easy to access and manage via phone, tablet and desktop computer. Maximize visibility with custom dashboards around key metrics to power better decisions for your business.
