Unique Aspects of our Human Service Management/Leadership Program	
1	One of a kind program in the nation – Unique program which focuses on strictly on Human Services Management/Leadership.
2	Created to address a common problem in the field: when direct service employees are promoted to managerial positions, they often fail because they do not have appropriate managerial skills.
3	Developed in conjunction with a Program Advisory Committee comprised of national and state leaders/subject matter experts that share expertise, make program recommendations, and provide regular review and improvement of the program.
4	A curriculum that teaches Human Service professionals leadership/management skills that enable them to operate accountable services that change people's lives.
5	Emphasis is on sharing of best practices, immediate application at the workplace, and supporting/preparing students for advancement in managerial/leadership positions.
6	Has a comprehensive & extensive program evaluation component to ensure that the program meets industry standards and need.
7	Has a strong program emphasis on sound research practices, data analysis and solid program evaluation measures for increased outcome accountability.
8	The applied nature of the program - Teaches potential leaders/managers real-life practical skills that are based on achieving measurable results in the client populations they serve.
9	Courses taught by credentialed industry leaders/managers with years of applied experience in the field.
10	Will share our measurable successes with our partners in an annual report that they can provide to their stakeholders.
11	Students propose a well-developed and comprehensive solution to solve a management or agency challenge by the end program
