Family Benefit Solutions
The Illinois Medicare-Medicaid Alignment Initiative (MMAI) is a managed care program for individuals that are eligible for both Medicaid and Medicare (referred to as “dual eligibles”).
MMAI allows eligible beneficiaries in Illinois to receive their Medicare Parts A and B benefits, Medicare Part D benefits, and Medicaid benefits from a single Medicare-Medicaid Plan, also known as a MMAI plan.
MMAI combines both medical care and non-medical “home and community-based services” into a single program.

Therefore, traditional health care services such as hospital care, prescriptions, behavioral health and mental health are combined with non-medical supports such as adult day care, personal emergency response systems, personal care assistance, homemaker and chore services.
