

Become an **EP!C** **HOST HOME PROVIDER**

Open Your Heart. Open Your Home.

EMPOWERING

We support people ages 18+ with intellectual and developmental disabilities and their families with unique educational, residential, employment, and care programs **tailored to each individual's** abilities and needs.

INSPIRING

We help the people we support find a home to encourage independence in a family environment. We look for Providers that are **PASSIONATE** about making a difference in the life of a person with disabilities from within their home that prefer a **FLEXIBLE** schedule!

IMPACTING

Host participants become immersed in both community and family life. Providers can receive extra income ranging from **\$25,000 to \$65,000**, but the impact is more than that -Providers also have the unique opportunity of playing a role in someone's growth and **independence**.

"I always wanted to be involved in supporting people with disabilities and being a provider is the best way for me to do that. From being two single guys living together, to my wife joining us, Trevor has become an extended part of my family. This program has truly exceeded my expectations, at such a young age I never thought this could be considered a job. Every day has its challenges but far more so has its benefits."

- James Funk, Host Home Provider
