- Psychosocial Rehabilitation (PSR)
- Therapy On-Site
- Treatment Alternative Court (TAC)
- Re-Entry Program
- Therapy In-Home/Community

INDIVIDUAL PLACEMENT & SUPPORT (IPS)

A Supported Employment model, IPS is a program that helps people with mental illness find and keep jobs, while at the same time providing employers with access to motivated employees. IPS is a no barrier, strengths-based approach that seeks to engage persons with behavioral health conditions from the moment that they express interest in obtaining employment in their communities.

AID CRISIS LINE OF THE FOX VALLEY

Provides free phone counseling for depression, suicide, rape, addiction, domestic violence and family issues. Callers receive referrals to human service agencies in the area.

The "Sunshine Calls" program, a service of the AID Crisis Line of the Fox Valley, offers regular, scheduled phone calls to those in need of medication reminders or general social interaction.

CHILDREN & FAMILY SERVICES

Families seek services for a variety of reasons, including mental illness, trauma, disruptive behavior disorders, family relationship issues and school trouble. AID Children & Family services navigate these important issues to allow children, youth, adults and families to grow and heal. Services include therapy, psychiatric treatment, psychiatric nursing services and medication management.

COMMUNITY SUPPORT TEAM (CST)

CST is an intensive team approach that provides services to best meet client's mental health needs, reduce symptoms, reduce emergency room visits, prevent homelessness and eliminate unnecessary call-outs to emergency personnel while increasing compliance with medication and treatment follow-up. Each CST maintains 24 hour/ 7 day a week availability with intensive community support and focus on client's goals

Services provided throughout Kane, Kendall, DeKalb, McHenry, suburban Cook, DuPage and Will Counties. For more information about AID Developmental Disabilities or Behavioral Health services, please visit AIDcares.org or e-mail info@aidcares.org.

PSYCHIATRIC SERVICES

The primary purpose of Psychiatric Services is to reduce symptoms of mental illness, improve coping skills and instruct in the use of medication(s), thus allowing the individual to improve functioning at home and in the community.

AID offers face-to-face and tele-health psychiatric care for children and adults.

SUPERVISED COMMUNITY LIVING

The purpose of this program is to help people with mental illnesses live more independently in the community.

People live in their own apartments with 24-hour on-site staff support. Services include counseling, case management, assistance in the community, crisis resolution and more.

SUPPORTED COMMUNITY LIVING

Provides the same, but less intensive services as Supervised Community Living. Supported Community Living allows people to live on their own and receive staff support at least once a week in their home.

Services include counseling, case management, assistance in the community, crisis resolution and more.

VICTIMS & OUTREACH SERVICES

Includes 24-hour assistance to victims of violent crime and/or trauma. Services include crisis intervention, counseling, advocacy, education and referral to local resources. Available in Aurora, Batavia, Geneva, Lombard, N. Aurora, South Elgin and St. Charles. AID also contracts with the Cary and Huntley law enforcement departments to reduce recidivism and ensure residents get the specialized help they need.

COMMUNITY SERVICES: TRADITIONAL, STARS & SPECIALIZED

Traditional small workshop program offered from 9am until 3pm that assists with the acquisition, retention and improvement in self-help, socialization and adaptive skills. Activities may include job exploration, volunteer work or piece work, recreation and educational experiences.

STARS (Structured Therapeutic Adult Recreation Services) focuses on active community integration, volunteer work and fitness activities by locating in local fitness centers and churches.

The Keeler Center is a specialized day program for individuals with complex behavioral, medical and physical support service needs. This program promotes building of fine and gross motor, social, and daily living skills through community participation and volunteer opportunities. Individualized programming and Behavior Supports are provided by on site Program Manager, Education Specialist, Assistive Technologist and Behavior Analyst.

PSYCHOSOCIAL REHABILITATION (PSR)

PSR offers group counseling interventions to assist individuals in developing new and refining current life skills needed to function optimally.

EMPLOYMENT SERVICES

AID Employment Specialists work with clients to discover employment interests, find and retain employment and offer job coaching / skill building through community integration. Job satisfaction for the employer and employee are major goals of this program.

INDIVIDUAL PLACEMENT & SUPPORT (IPS)

A Supported Employment model, IPS is a program that helps people with mental illness find and keep jobs, while at the same time providing employers with access to motivated employees. IPS is a no barrier, strengths-based approach that seeks to engage persons with behavioral health conditions from the moment that they express interest in obtaining employment in their communities.

AID believes that people can live and work in their communities with the proper supports.

AID strives to meet clients where they are and support them in moving where they want to be.

AID VISION: Recognized leader providing best quality outcomes for individuals served in areas of housing, employment, community integration, health promotion, recovery and crisis prevention
